PROFESSIONAL PROFILE

Fullstack Developer (JavaScript ecosystem) with real-world experience shipping production products: an e-commerce processing live payments via Mercado Pago and a Python desktop app that automates tax workflows for an accounting firm. Specialized in React, Astro and TypeScript, focused on performance and clean code. Information Systems student with 3 years of prior administrative experience — business insight uncommon in junior profiles.

WORK EXPERIENCE

Freelance Fullstack Developer

2025 – Present · Buenos Aires, Argentina

Vak Store — Production e-commerce (vak-store.vercel.app)

Astro, React, TypeScript, Supabase (PostgreSQL), Mercado Pago, Resend

- Built end-to-end a live online store with real sales: dynamic-filter catalog, cart and checkout with real-time stock control.
- Integrated Mercado Pago (Checkout Pro) with signed webhooks, idempotent processing and automatic refunds on out-of-stock.
- User authentication (email + Google) and PostgreSQL database with RLS policies on Supabase.
- Shipping system with postal-code quotes, printable labels and order tracking; transactional emails and scheduled cron jobs.

Estudio Contable SZ Landing — Corporate website (estudiocontablesz.com)

Astro, React, Tailwind CSS, Vercel

- Conversion-focused, fully responsive corporate website built with Astro's island architecture; 95+ Google Lighthouse score.

AFIP Bot — Desktop tax-automation app (internal use)

Python, Playwright, CustomTkinter, pandas

- Self-initiated tool that automates tax-receipt downloads from the AFIP (tax authority) portal for the firm's 40+ clients.
- Cut processing time by 35% and eliminated manual entry errors; packaged as a Windows executable in daily use.

Administrative Assistant — Estudio Contable SZ

2023 – Present · Adrogué, Buenos Aires

- Accounting work (e-invoicing, reconciliation, client portfolio); origin of the automations above. Public recommendation from the firm on LinkedIn.
